Banksy at War

Banksy at War

This stamp was issued on the one-year anniversary of Russia's invasion of Ukraine. It shows a mural created by famous British artist Banksy during the early part of the war. The design pictures Putin being flipped by a young boy during a Judo match. The stamp name is "FCK PTN," insulting Putin while inspiring the Ukrainian people. The stamp design represents the idea that, while smaller, Ukraine can still defeat enemy Russia.
